

Invitation to Tender (ITT)

For: Literature Review on Youth Employment for Next Generation Kenya

Date: March 2017

1 Overview of the British Council

1.1 The British Council is the United Kingdom's international organisation for cultural relations and educational opportunities. Its purpose is to promote a friendly knowledge and understanding between the people of the UK and people worldwide; making a positive contribution to all the countries we work with; and making a lasting difference to the UK's security, prosperity and influence. It seeks to achieve its aims by working in education, science, governance, English and the arts. In 2014-15, its programmes reached a total audience of 647 million people worldwide, up by 43 million from the previous year. The British Council also had a total turnover of £973 million, which was 13% higher than the previous year. Its income included a grant-in-aid of £155 million, £637 million from fees and income from services such as English teaching, exams administration and £164 million from contract activity, such as the management of client-funded contracts, and funding from a wide range of public and private sector partners.

1.2 The British Council was established in 1934 and incorporated by Royal Charter in 1940. It is registered as a charity in England and Wales (charity no. 209131) and Scotland (charity no. SCO37733). It is also an executive non-departmental public body, with the Foreign and Commonwealth Office as its sponsoring department.

1.3 Its primary charitable objects are set out in the Charter and are stated to be to:

- Promote cultural relationships and the understanding of different cultures between people and peoples of the United Kingdom and other countries;
- Promote a wider knowledge of the United Kingdom;
- Develop a wider knowledge of the English language;
- Encourage cultural, scientific, technological and other educational co-operation between the United Kingdom and other countries; and
- Otherwise promote the advancement of education.

1.4 The British Council works in more than 110 countries around the world and employs over 7000 staff worldwide. It has its headquarters in the UK, with offices in London, Manchester, Belfast, Cardiff and Edinburgh. Further information can be viewed at www.britishcouncil.org.

2 Introduction and Background to the Project

2.1 **Next Generation Kenya** is a joint project of the British Council and the UK Department for International Development (DfID) through the East Africa Research Fund. It follows similar Next Generation projects in Tanzania, South Africa, Pakistan and Nigeria in researching the perceptions and aspirations of young people in countries experiencing youth bulges; producing recommendations for improved policies to capitalise on the potential of the next generation; and giving a voice to young people as they attempt to shape their countries' future. The project combines policy-relevant research with a strategic communications campaign to disseminate the findings widely and use them to enhance young people's ability to influence the policy environment.¹

The research component of the project combines a review of the literature on the challenges facing young people in each country; quantitative attitudinal surveys; and qualitative research exploring young people's views in depth.

This invitation to tender relates to the literature review strand of the research. This will be a systematic, critical review of the literature on youth employment in Kenya, which will be peer reviewed by the project's Research Advisory Group and aim for publication in a peer-reviewed journal (a detailed list of requirements is presented in section 7 below). It will draw on academic studies as well as reports by bilateral and multilateral institutions and other research organisations (including DfID's East Africa Research Hub, the British Council's Higher Education Graduate Employability research, ILO, World Bank, Aga Khan East Africa Institute, Afrobarometer, Global Competitiveness Report among others).

Questions to be addressed by the paper include:

- How have employment and unemployment rates among young people in Kenya (aged 15-24) evolved since 2000?
- How are youth employment and unemployment rates projected to evolve between now and 2030?
- How reliable are the data in these areas?
- Which sectors do young Kenyans work in (public vs private, agriculture vs industry vs services etc.)? What is the balance between formal and informal employment, and employed and self-employed employment? Which strategies do young people deploy to make ends meet in a context of low formal employment?
- What is the role of new technologies and digital in young people's economic strategies?
- How great a problem is under-employment, and how reliable are the data in this area?
- How well equipped are young people for the demands of the labour market (including business perceptions of this)?
- How ready is the labour market to integrate young people? What are the barriers to integration?
- To what extent is youth employment supported or impeded by government policies?
- How can youth employment be increased in Kenya? Are there lessons from other countries on how to move from high to low youth un- and under-employment?

¹ Reports from earlier Next Generation studies are available here: <https://www.britishcouncil.org/society/governance-civil-society/next-generation>

For each of the above questions, consideration should be given to differences between men and women, rural versus urban dwellers, and the different regions of Kenya.

2.2 The purpose and scope of this ITT and supporting documents is to explain in further detail the requirements of the British Council and the procurement process for submitting a tender proposal.

7 Specification

We are inviting Kenyan and international researchers to submit their tender documents for a literature review on youth employment in Kenya. This review will aim for publication in a peer-reviewed journal. It will lay out the background in which the Next Generation Kenya project is to be conducted, assist with design of the questionnaires for the subsequent quantitative and qualitative research stages, and provide evidence-based inputs for the policy recommendations that will appear in the final project report and dissemination events. It will examine what is known about youth employment in Kenya, what is not yet known, and what can be done to effect positive change.

The selected researcher will design the research methodology, conduct research activities, and produce a high-quality research report that describes the current picture (since 2000, with projections up to 2030) with regard to youth employment in Kenya; maps likely future scenarios; and makes evidence-based recommendations for increasing youth employment and reducing under-employment.

Methodology:

The literature review should identify, critically evaluate and summarise the findings of high-quality published and unpublished research on youth employment in Kenya. Its discussion section should, in addition, critically examine and present successful case studies of efforts by other countries to promote young people's employment. (While it may not be possible to conduct a fully systematic literature review on the theme of youth employment in Kenya - as it may be, for example, with the effectiveness of a medical intervention - researchers should aim to be as systematic as possible and to critically interrogate all data sources used).

The report of the research should contain the following sections:

- Introduction, outlining the rationale for the study and its objectives.
- Methodology, including how the research was conducted, search terms and databases used, inclusion and exclusion criteria (and the rationale for these), how unpublished studies were searched for, and the number of studies finally included and excluded.
- Results, including a table listing the included studies, as well as analysis of the quality of the findings and data therein and examination of inconsistencies and gaps.
- Discussion, including a summary of the findings, recommendations for policy (bearing in mind the strengths and weaknesses of the data reviewed), and recommendations for future research.
- Bibliography

Deliverables:

At the tender stage, the required deliverables are a research proposal in Word format, a budget and a work plan, as outlined in Annexes 1-4 below.

At the reporting stage, the required deliverables are a first draft of the research report in Word format, and then a final draft that takes account of peer reviewers' comments. The first draft of the research report should be delivered by **26 May 2017**, with the final draft delivered within seven working days of receipt of comments from the peer reviewers.

8 Mandatory Requirements / Constraints

8.1 As part of your tender response, you must confirm that you meet the mandatory requirements / constraints, if any, as set out in the British Council's specification forming part of this ITT. A failure to comply with one or more mandatory requirements or constraints shall entitle the British Council to reject a tender response in full. The mandatory requirements are as follows:

- The first draft of the report of the literature review must be presented in Word format to the British Council no later than **26 May 2017**. The revised draft should be presented not more

than 7 working days after receipt of comments from the peer reviewers. The bidder should submit a breakdown of days and costs within the above timeframe with the application.

- Confidentiality: The supplier will be required to adhere to the British Council confidentiality clauses as specified in the section on conditions and contractual requirements in Annex 1.
- Data protection: The Supplier will act in accordance with the consent obtained and as data processor adhere to the Data Protection Act 1998 and any British Council instructions in regards to processing the personal data (please see Annex 2 – data protection clauses).
- Intellectual property rights: For any pre-existing materials provided to the supplier by the British Council and any reports, materials, and documents produced by the supplier, the intellectual property rights created in the course of the services will be owned by the British Council.

9 Qualification Requirements

9.1 As part of your tender response, you must confirm compliance with any qualification requirements as set out at Annex 2 (Qualification Questionnaire). A failure to comply with one or more such qualification requirements shall entitle the British Council to reject a tender response in full.

The CVs of the personnel who will deliver the literature review should demonstrate the appropriate technical and professional knowledge of the research field, as well as expertise and experience in the field. The tender submission should clearly demonstrate prior experience of undertaking similar services in similar locations. Research accreditation documents should be submitted with the response. The supplier shall demonstrate in the return response to this ITT that he/she has:

- proven experience of writing research reports on youth employment in developing countries, preferably in Africa;
- proven experience of conducting systematic literature reviews;
- proven experience of delivering well-written, clearly analysed research reports in a timely manner;
- an understanding of Kenya's demography and its economy;
- an advanced degree in Economics, Labour Market Studies, Development, Social Studies or a related field.

10 Key background documents and further information

10.1 Further relevant background documents / information may be provided to potential suppliers as set out below, as an Annex to this ITT and/or by way of the issue of additional documents / links to additional information / documents. Where no such information / documents are provided, this Section of the ITT will not apply.

If the British Council considers the contents of the request not to be confidential, it will inform you and you will have the opportunity to withdraw the clarification query prior to the British Council responding to all potential suppliers.

13.4 The British Council may at any time request further information from potential suppliers to verify or clarify any aspects of their tender response or other information they may have provided. Should you not provide supplementary information or clarifications to the British Council by any deadline notified to you, your tender response may be rejected in full and you may be disqualified from this Procurement Process.

14 Evaluation Criteria

14.1 You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tender responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this ITT and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantageous tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Knowledge and experience of researching youth employment in Africa	40%
Methodology and Approach	20%
Evidence of ability to deliver well-written	20%

reports in a timely manner	
Costing/price	20%

Evaluation of all submitted responses will be undertaken by the evaluation panel which will consist of British Council representatives with relevant and significant experience and knowledge of the requirements.

Evaluation of all submissions will only consider information presented within the response. Previous/current relationships with suppliers cannot be taken into account when evaluating submissions unless the previous/current experience is clearly evidenced within the response. Evaluation will be fair and transparent.

The responses under each section will be scored based on the following matrix:

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored using the following scoring model:

The responses under each section will be scored based on the following matrix:

Points	Interpretation
15	A comprehensive and strong answer indicating the supplier is fully capable and experienced to deliver the required outcomes. A detailed response that directly responds to all requirements with no ambiguity and relevant examples provided.
12	There are slight concerns that the supplier will not be able to achieve all the outcomes required and response lacked details of relevant experience. A less detailed response that broadly responds to the requirement with some ambiguity and few relevant examples provided.
8	There are concerns that the supplier will not be able to achieve the outcomes required and response significantly lacks details of relevant experience. A less detailed response that broadly responds to the requirement with some ambiguity and no/irrelevant examples provided.
5	There are serious indications that the supplier will not be able to achieve the outcomes required and has not provided appropriate evidence of experience to successfully deliver the outcomes required. A response that is not entirely relevant to the requirement, with ambiguity and lacking specific detail.
0	The answer is non-compliant and/or no relevant information has been received to demonstrate the supplier can achieve the required outcomes. No response or a response that is entirely irrelevant.

The lowest all-inclusive cost proposed will receive 20%. All other submissions will be allocated a % score pro-rata.

14.4 Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Annex 4 (Pricing Approach) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire. If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
